DMG MORI BECOMES A WORLDSKILLS GLOBAL INDUSTRY PARTNER

WORLDWIDE LEADING MANUFACTURER OF METAL-CUTTING MACHINE TOOLS JOINS WORLDSKILLS

DMG MORI becomes a WorldSkills International Global Industry Partner, joining a leading group of industry partners dedicated to improving the world with the power of skills. As a Global Industry Partner, DMG MORI builds on its past support of WorldSkills Competitions and WorldSkills Members, to further develop skills excellence and an internationally prepared workforce.

DMG MORI's global presence combining German and Japanese traditions of technological leadership, makes it an ideal partner for WorldSkills International, and CNC Milling and CNC Turning. As a respected and worldwide leading manufacturer of metal-cutting machine tools such as lathes and high-tech machining centers, DMG MORI is committed to advancing the manufacturing world, and the skilled talent behind it.

"When a worldwide leading manufacturer like DMG MORI supports excellence in skills development, the entire WorldSkills mission benefits. DMG MORI recognizes that skills keep people and economies working. We are proud to partner with DMG MORI to enhance the WorldSkills vision of improving the world through the power of skills," said Alexander Amiri, WorldSkills International's Director of Sponsorship and Partnership.

"The WorldSkills Competitions are designed to motivate young people to perform at their very best. Since 2007 we have been supporting the WorldSkills Competitions. Our new role as a Global Industry Partner of WorldSkills International and the latest DMG MORI machine tools for the competitions underline our long-term support," said Jan Möllenhoff, Managing Director of DMG MORI Academy.

The global partnership with DMG MORI and WorldSkills International begins in early 2016. For more information on WorldSkills and DMG MORI, visit www.worldskills.org and www.dmgmori.com.

About WorldSkills: Founded in 1950, WorldSkills is a global organization that promotes vocational, technological and service-oriented education and training. We promote more than 45 skilled careers in 75 Member countries and regions, all working with youth, educators, governments, and industries to help prepare the workforce and talent of today for the jobs of the future. From the traditional trades to multi-skilled technology careers in the industry and service sectors, supported by partners, industries, governments, volunteers and educational institutions, WorldSkills is making a direct impact on raising the level of skills throughout the world.

DMG MORI is a worldwide leading manufacturer of metal-cutting machine tools. The range of products include innovative high-tech lathes and milling machines, advanced technologies (ULTRASONIC / LASERTEC), the ECOLINE product range as well as electronics and systems products. Our industrial services include diverse services covering the entire machine life cycle and the area of energy solutions. The DMG MORI Academy as a member of the DMG MORI group is a world leader of knowledge transfer in the area of CNC machine tools. Customers and affiliates' employees are trained in own training centers or on site when requested. Furthermore, DMG MORI Academy acts as project partner in the equipping of training centers and educational facilities.

Over 7,400 employees contribute to the success of the company. A total of 164 domestic and international sales and service locations in 76 countries under the global brand DMG MORI maintain direct contact to the customers. Together with the Japanese partner, DMG MORI COMPANY LIMITED, the group is present in all important markets worldwide.
